2 12 EXPLANATION
2 13 This bill provides for changes relating to the operation of
2 14 the department of administrative services. The bill provides
2 15 for an exception to the open meetings law for meetings of the
2 16 technology governance board in which requests for proposals
2 17 are being discussed or reviewed prior to issuance, if

2 18 conducting a closed meeting is approved by a majority vote of
2 19 the board. The bill provides, however, that all board actions
2 20 and decisions regarding a request for proposals shall be made
2 21 in an open meeting and appropriately recorded. The requests
2 22 for proposals subject to this provision, pursuant to Code
2 23 section 8A.204, subsection 3, paragraph "g", relate to
2 24 information technology devices, hardware acquisition,
2 25 information technology services, software development
2 26 projects, and information technology outsourcing for agencies
2 27 that exceed the greater of a total cost of \$50,000 or a total
2 28 involvement of 750 agency staff hours.
2 29 The bill also provides for the elimination of inconsistent
2 30 language regarding the development and adoption of information
2 31 technology standards by the department and the board, and the
2 32 standards' application.
2 33 Additionally, the bill includes political subdivisions
2 34 within the definition of "state agency" for purposes of
2 35 establishing a debt collection setoff procedure for collection
3 1 of debts owed to the state or its agencies. Currently,
3 2 political subdivisions are specifically excluded from the
3 3 definition.
